

Email correspondence between KEPC & GCC regarding Minute item 20.116

From: clerk@kembleandewen-pc.gov.uk
Sent: 30 October 2020 15:38
To: 'troconsultation@gloucestershire.gov.uk'
Subject: Experimental TRO Application Request

Dear Sirs,

At the Parish Council meeting of October 9 2020. Kemble & Ewen Parish Council resolved to apply to GCC for an Experimental Traffic Order (Double Yellow Lines) on Pheasant Hill as specified and permitted under the Local Authorities' Traffic Order Regulations and Sections 9 and 10 of the Road Traffic Regulation Act 1984. IT wishes to request experimental double yellow lines on both sides of the carriageway from the top of the hill to the station entrance as proposed in the Controlled Parking Zone/Restricted Parking Zone of 2019. Please could you advise what the next steps are in making this application?

Kind regards,

Sarah Broadley
Clerk to Kemble & Ewen Parish Council

Subject: Experimental TRO Application Request

Dear Sirs,

Please see below email which I sent to troconsultation.
As I have not had a reply I am forwarding to highways in case this should be a more appropriate avenue through which to progress the enquiry.

I look forwards to hearing from you in due course. Perhaps you would be kind enough to direct me to the correct mailbox if this is indeed not the right place.

Kind regards,

Sarah Broadley
Clerk to Kemble & Ewen Parish Council

Subject: RE: Experimental TRO Application Request - 1129

Good morning Sarah,

Thank you for your email regarding a proposed application for an experimental TRO at Pheasant Hill. The email address you have used in your direct email to TRO Consultation is correct. However, as far as I'm aware, the team always have a high volume of requests to deal with, and the whole process is unfortunately a very slow one. However, I have forwarded your email to Richard Gray, the Local Highways Manager, asking him if he can advise you on any correct and formal process that should be followed and any other relevant information.

Kind regards

Ray

Subject: Experimental TRO Application Request

Hi Sarah

In response to your request for an Experimental Traffic Regulation Order (ETRO) for double yellow lines on Pheasant Hill.

This will not be possible as we can only use an ETRO when we do not know what the result of 'trialling' the scheme will be. We know what the result of implementing double yellow line will be... it restricts parking and vehicles will **not** be able to park there.

Also, it is worth stating that an ETRO is a far more complex and time consuming process where the build needs to be paid for and installed upfront and consultation follows, which means that there is a risk we will need to take out the scheme in the future depending on feedback/ comments, which leads to more cost. We also need to consult for 6 months rather than the standard 21 days which requires a lot more officer time to monitor the scheme and deal with more comments over a much longer period.

I hope this answers your query. I have a call with the parish at 3pm today where I can further explain this if needed.

Kind regards

Alexis Newport

Hi Alexis,

Thank you for your email.

I will feed this information back to the Parish Council.

Kind regards,

Sarah
