Subject: TRO Investigations at Kemble - Proposed Plans for Approval

Good afternoon all,

Following our site meeting last week, and further analysis and assessment, we have produced the attached proposal plans pertaining to the various sites at Kemble.

The sites are largely as we discussed on site. The only slight changes are:

- We have decided to retain a limited amount of restrictions on Clayfurlong Grove to prevent parking on the inside of the tight bends and on particularly narrow sections of road.
- We have extended the DYLs opposite the junction of Windmill Road and Station Road in order to prevent parking opposite this junction and improve navigability for vehicles here.
- We have decided to retain the DYLs across the driveways on Station Road and to see what the response is from those properties which they are adjacent to.

I would be most grateful if you could please issue any comments you have, or confirm that you are happy with the proposals as soon as you are able. We will be undertaking another Notice of Proposal (Public Consultation) stage allowing the public to issue comments over a 4 week period once we are agreed on these designs.

I look forward to your thoughts. Please don't hesitate to get in touch if you have any further queries.

Thanks as always,
Will Wilson BSc (Hons) MSc, AMIHE, Traffic Engineer
